Re: (a) Lockheed Martin Letter, dated September 15, 2010  
(b) Lockheed Martin Corporation Section 104(e) Comprehensive  
Environmental Response, Compensation & Liability Act ("CERCLA")  
Response to Information Request for the Yosemite Creek Superfund  
Site, dated January 7, 2010

Mr. Whitenack,

As a follow-up to my referenced letter of September 15, 2010, Lockheed Martin is still working to identify documents that will support supplemental answers to the referenced 104(e) response.

These documents explain the operations at Lockheed Martin's Sunnyvale, California facility over the relevant time period called for in the EPA's section 104(e) request. As you may recall from the reference (b) section 104(e) response, Lockheed Martin's only relationship with Bay Area Drum was that a limited number of clean drums were sold to Bay Area Drum from the Sunnyvale facility during the 1980 to 1984 time period.

Lockheed Martin needs a few more weeks to locate documents that describe the overall operations at the Sunnyvale facility. Lockheed Martin respectfully requests a time extension up to and including November 12, 2010 to provide its supplemental section 104(e) response. If you have any questions or concerns, please feel free to contact me at 303-977-3446, or Greg Correnti in the Lockheed Martin Legal Department at 408-756-7727.

Your understanding and cooperation is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Corinne L. Bogert", written over a circular stamp or seal.

Corinne L. Bogert  
Sr. Manager, Environment, Safety & Health
